<u>Chemical Name</u>	<u>CAS Number</u>																																
Water	7732-18-5																																
Sorbitol	50-70-4																																
Mannitol	69-65-8																																
Citric Acid	77-92-9																																
Malic Acid	617-48-1																																
Sodium Citrate	6132-04-3																																
Sucralose	56038-13-2																																
Acesulfame Potassium	55589-62-3																																
Sodium Hexametaphosphate	68915-31-1																																
Sodium Benzoate	532-32-1																																
Potassium Sorbate	590-00-1																																
Calcium Disodium EDTA	23411-34-9																																
Flavorings	n/a																																
Total Amount of Potassium	13mg																																
Total Amount of Sodium	120 mg																																
Physical Data for Product	Boiling Point: Not tested Specific Gravity (H ₂ O = 1) Range: Not tested Solubility in Water: Soluble pH: 3.3 Appearance & Odor: Clear with a fruity odor																																
Handling and Storage	Refrigerate prior to use for best taste. Use immediately after adding oral iodinated contrast. Discard any unused portion. Use by expiration date stamped on bottle. Do not use if tamper proof seal is seperated prior to opening.																																
Special Precautions and Comments	Contraindications - This beverage should not be ingested by anyone who has a known allergy to any of the ingredients listed on the label. Iodinated contrast should not be given to those with a known allergy to iodinated contrast. Use only under the supervision and direction of a physician.																																

Breeza Instructions for use:

1. For best taste refrigerate Breeza prior to use
2. Fill out the patient information section. Use fine tip Sharpie® directly on the bottle or write on the provided adhesive label and adhere to bottle
3. Twist cap open and add oral iodinated contrast to the Breeza bottle per the specifications of the requesting physician
4. Firmly twist cap back on and shake lightly
5. Repeat steps 2-4 for additional bottles if requested by physician
6. Give bottle(s) to the patient with drinking instructions of the requesting physician
