AROMATHERAPY HELPED REDUCE NEED FOR ANTI-ANXIETY MEDS FOR SOME RADIATION TREATMENT PATIENTS

“Our patients have been very receptive to having AromaTabs™ used for their treatment sessions. They appreciate the extra gesture for their comfort and well-being, plus we have had 2 cases so far where AromaTabs™ enabled the patients to forego taking their anti-anxiety medicine before treatment! One of these cases is undergoing IMRT and requires a head mask. He is on the table for a very long time with his head confined. Both patients have stated the AromaTabs™ work better than their relaxation medication.”

DO YOU HAVE AN INNOVATIVE USE OF A BEEKLEY PRODUCT YOU'D LIKE TO SHARE?

Send your “Nugget” with your contact information to nugget@beekley.com. If your “Nugget” is featured as the Technical Nugget of the Month, we'll send you a free gift as our way of saying thanks.

Technical Nugget of the Month

Beekley is dedicated to creating simple, innovative solutions that improve communication in diagnostic settings. To us, improved communication equals improved patient care.

When we hear of innovative ways Beekley's products are used to meet departmental challenges or to improve patient safety, we feel it is our obligation to share that information with you.

We hope you find this information helpful and will pass it along to everyone in your department who might also benefit.
